

## **Romanian Navy collaboration with the NATO MGEOMETOC COE during the REPMUS21 Exercise**

During the REPMUS21 exercise, the Rapid Environmental Assessment (REA) working group from the NATO MGEOMETOC COE received the team from the Romanian Navy (Sponsoring Nation of MGEOMETOC COE).

The Romanian Navy team was composed by 4 elements, divided between the activities in the exercise areas of Tróia and Sesimbra.

The goal of this Allied Nation was to observe, learn and share experiences in the use of unmanned systems for operational oceanography.
